

## NOW BOOKING - Educational visits

A visit from Sponge Kitchens provides a great opportunity for school children to learn about bread in a fun and interactive way.

Our live bread demonstration includes:

- The history of bread and different types of bread from around the world
- The day in the life of a baker
- Practical demonstration of how to make bread
- Interactive session where children get to see how dough is made and make rolls, plaits and pretzels for themselves
- A fun, key stage specific worksheet

*Sponge Kitchens worked with children from Nursery all the way through to Year 6 providing fun, interactive and challenging bread workshops. Our children had a fantastic day – and I thoroughly recommend it.*

***Ellen Warr, Science Coordinator, Churchfields Primary and Nursery School***

The bread workshop lasts for an hour and prices start from £3.50 per child and each child gets to take home a goodie bag.  
(minimum spend applies)
